

Pavel Teslenko

Product Lead | GenAI & Platform Products

Amsterdam, Netherlands | paveltess@gmail.com | linkedin.com/in/pavelttes | github.com/TeslaP

Profile

Product leader with 10+ years building and scaling digital products at Booking.com, Miro and Nike. Currently leading a GenAI product portfolio for Booking.com's partner ecosystem - AI-powered search for an experience handling 2M+ queries annually, an AI support agent in development for an ecosystem serving 100K+ monthly sessions, and shared retrieval and knowledge capabilities.

Track record of taking products from 0 to 1, expanding into new markets (13 EMEA markets, 200% YoY growth at Nike), and leading cross-functional teams of engineers, ML specialists, designers and content strategists through complex product decisions. Combines product strategy, customer research and experimentation to connect business needs with measurable user outcomes.

Experience

Booking.com | Product Lead, GenAI

Nov 2025 - Present | Amsterdam

- Own product strategy and roadmap across AI search, conversational support and shared knowledge capabilities, aligning teams on product sequencing and delivery priorities.
- Led AI Smart Search from concept to production rollout on Partner Hub, a search experience handling 2M+ partner queries annually, using hybrid semantic and keyword retrieval.
- Leading development of an end-to-end AI Support Agent for multi-step partner journeys, replacing an external chatbot platform within an ecosystem serving 100K+ monthly sessions.
- Driving the next generation of the retrieval-augmented generation (RAG) pipeline, using improved chunking, embeddings and metadata filtering to support more relevant, reliable answers and better knowledge freshness.
- Align GenAI, ML engineering, content, financial technology and voice AI teams on multi-agent orchestration, shared authentication and safety capabilities, and handovers between agents.
- Define evaluation and experimentation approaches across reach, engagement, quality and impact, balancing partner outcomes with model quality, cost and reliability.
- Established reusable interface components and use of shared ML infrastructure for partner-facing AI products within Digital Partner Experience.

Miro | Product Lead

2024 - 2025

- Owned product strategy and roadmap for Miro's Templates Library, improving template discovery, search relevance and engagement while connecting customer needs with business priorities.
- Partnered with engineering, design, content and data teams to deliver template and search improvements, increasing user adoption by 35%.
- Used customer research, behavioural analytics and A/B testing to identify friction, prioritise opportunities and improve conversion.

Miro | Strategic Programs Lead

Jul 2020 - Jun 2024

- Led a team of three to design and launch new product experiences from 0 to 1, improving top-of-funnel performance and engagement.
- Partnered across product, marketing and analytics to drive platform adoption, prioritise initiatives and measure business impact.

Nike | Product Lead, Nike App, EMEA

Jul 2018 - Jul 2020

- Owned regional strategy and roadmap for Nike App, leading a team of three and expanding the product into 13 new EMEA markets with 200% year-on-year growth.
- Coordinated cross-functional and local market teams on acquisition, regional adaptations and product improvements to support adoption and growth.

Nike | Product Owner, Campaign Experience

Mar 2018 - Jul 2018

- Led end-to-end development of Nike's World Cup 2018 campaign platform across UX, content and agency teams. Delivered Nike's top-performing global campaign, recognised with the Global Maxim Award.

Nike | Manager, Digital Experience

Feb 2015 - Mar 2018

- Led a regional team developing and scaling digital experiences on Nike.com, partnering with global stakeholders to improve engagement and lead generation.

Earlier experience

Grey Group | Lead, Digital Strategy (Feb 2014 - Feb 2015)

Delivered 40+ digital strategy frameworks and prototypes for clients including P&G and Kaspersky.

DALEE Digital Agency | Project Manager (Mar 2013 - Feb 2014)

Delivered branded platforms for Samsung and Google+, including a community with 300,000+ members.

SOCIALITY Digital Agency | Digital Producer (Feb 2012 - Mar 2013)

Led digital platforms and campaigns for DOM.RU and Panasonic.

Core Skills

Product strategy and roadmaps • GenAI and conversational products • AI search and retrieval (RAG, embeddings, semantic search) • Multi-agent orchestration • Customer research and experimentation • Growth and adoption • Cross-functional leadership • Stakeholder alignment • Platform and ecosystem strategy

Education

Perm State University (PSU) - Business Administration and Management (2011)

Perm Modern Humanitarian College - Business Administration and Management (2008)

Languages

English: full professional proficiency • Russian: native • Dutch: intermediate
